

6th TPM in Denizli, Turkey

-**Welcome Ceremony**;Kindergarden students met all participants with Eco-songs.In addition;Special Education Needs Class(SEN) performed Kangaroo Dance for the all participants and visitors.

-**Eco-toy Show**;In the school garden,students of some classrooms played various games,which were traditional in the past ,but today we couldn't remember their even names.

-**Final Meeting(TPM)** ; this meeting was done in Coordinator school .During the meeting;all activities of EFPAS Project process were checked and undersigned by all partner school coordinators.Project strength points and weak points were evaluated by all participants.The result is the strength point of EFPAS Project related to all phases(Project Management and implementation,Dissemination Activities and Awareness Activities) considerably high.There isn't nearly weak points.

The necessary information was given the all partner school coordinators-by Project Coordinator about the process until the Project ending date (19/10/2019) and after this date.What is more; Strategic Sustainable Plan was prepared and creterias were determined by all partners.

-**Info-seminairs**; this seminair in two different fields were organized by Pamukkale University ;1 biodiversity and Eco-tourism of Denizli 2- Eco-footprints, which was an awarded Academic Work-by alot of Environmental Foundations.

-**Eco-walking**;through the Camlik Park the walking was held to observe Eco-view of Denizli - by all participants and host school staffs.

-**Eco-fashion Show**; the organization was done-by students in the school garden.Students took active roles in this work/event. All students parents,school staffs,all participants from our partner schools,local people,etc. were invited to this Organization.

-**Eco-exhibition**; the done eco-friendly work includes the topics within lessons.This all was carried with students' their own efforts.

-**Eco-theatre**; 3/D Classroom teacher and students prepared and performed this 'Play' in front of all audiences. The students gave Eco-friendly messages to the audiences (their parents, school staffs, participants from all partner schools, local people, their peers).

-**Eco-tent**; was built in school garden. The information of the Eco-tent was told to the all participants and visitors.

-**Food Festival Organization**; this activity includes home-made food preparation process. All participants had chances to watch the preparing process of Turkish food tastes and then each one could prepare the food. The prepared and cooked food were eaten in the lunch.

-**Eco-hobby Garden**; each participant was pleased to pick up the grown vegetables in the garden.

-**Visiting Neighbour School**; we had all chance to visit the school and all participants were informed about Turkish Education System. They honored us all with their great hospitable initiatives.

-**Erasmus+ Guesbook** ; this has been formed to all visitors and participants that they could write their comments, ideas and opinions about Eco-friendly Work. Most visitors and participants wrote what they thought about Eco-friendly Work in the EFPAS Project.

- **Eco-green Star Certificate**; the students who are active in the Eco-friendly Work were awarded with this certificate.

- **Eco-citizenship Certificates**; School staffs, Students' Parents, local civil and public organization representatives who were active role in EFPAS Project, and were awarded with this Certificate.

Eco-cultural Trip; In Buldan, there, we were informed about old and otantic structures of Buldan town. Public Education Center teachers and Municipalities Staffs guided us all. They showed all participants how the products were prepared the Hand-made textile products. The use of the root color was stressed in Buldan textile products. Suleymanlı Plateu; it is a great resting place just for a short time in a year for the immigration birds. There is a small lake in the middle of the plateau and various living things in the lake. We all could take photos and cameras of the Eco-beuties.
